

January 20, 1965
MW-M-981

Dear Joe:

SUBJECT: Contract [redacted]

STAT

During [redacted] visit here on 30 December 1964, we agreed to furnish additional information on the Coherent Enlarger program prior to acceptance of the instrument. A list of this is attached. At that time all items had been substantially accomplished but the typing of reports was incomplete and the exposures of some comparison enlargements were considered unsatisfactory.

STAT

These items are enclosed as well as some photographs of the instrument.

We also agreed that a meeting in Washington should take place at your earliest convenience following receipt of the enclosures. At this meeting the accomplishments of the program will be compared to the original objectives, preferably by the people who defined these objectives, and recommendations will be made in regard to future activities. We are looking forward to hearing from you regarding the date of this meeting.

Regards,

Charlie
